## UTAH COUNTY TECHNICAL BULLETIN
December, 2011-6

IMPORTANT: Do not order certificates through the ESP online store until your analyzer has received the second phase of the upgrade. Online purchases will only work if you are communicating over the internet using software version 1.37 or higher.

NEW PROGRAM ORIENTATION

Station and technician orientation material is now available online. Printed versions of this material will be sent out with your 2012 station and mechanic permits after your renewal fees have been paid.

ESP EQUIPMENT UPGRADE

We have authorized ESP to begin performing phase two of the upgrade. The main focus of this software version (v1.37) is the proper functionality between the analyzer and the new VID (Vehicle Information Database). There will be another software release in either the first or second quarter of 2012. The main focus for the next software version will be to improve the end user experience and "fine tune" the system. Written comments or suggestions from our stations are always welcome.

VIR REPRINT

The menu item " Reprint VIR - County Computer Query" will allow any station to reprint any VIR that was generated using the new software. This feature will only work for inspections performed using the new software, and only within the past 90 days. The VIR reprint function will only print the most recent passing inspection, not any failing, aborted or not ready VIR's. Stations may charge up to $3.00 for a VIR reprint regardless of where the test was conducted.

2012 COUNTY HOLIDAYS *-office closures-*

Again this year our office will be open Columbus Day (Monday October 8th) but will be closed the day after Thanksgiving (Friday November 23th). Please take note of the holiday closures and plan ahead.

Holiday	Date	Day

Day after Thanksgiving	November 23	Friday
Christmas	December 25	Tuesday

2012 CLASS SCHEDULE

The following is a tentative schedule for 2012 course dates. Classes will be limited to 10 students and may be canceled if less than 5 students are enrolled. Additional classes may be added if needed.

January 9-13, 17	February 6-13	March 12-19
April 9-16	May 14-21	June 11-18
July 9-16	August 13-20	September 10-17
October 8-15	November 5-9,13	December 10-17

Inspection Requirements - Gas Vehicles					
Renewal for 2011			Renewal for 2012		
Vehicle Model Year	Safety Inspection	Emissions Inspection	Vehicle Model Year	Safety Inspection	Emissions Inspection
2011	*Yes	*Yes	2012	*Yes	*Yes
2010	No	No	2011	No	No
2009	Yes	Yes	2010	Yes	Yes
2008	No	No	2009	No	No
2007	Yes	Yes	2008	Yes	Yes
2006	No	No	2007	No	No
2005	Yes	Yes	2006	Yes	Yes
2004	No	Yes	2005	No	Yes
2003 older	Yes	Yes	2004 older	Yes	Yes

* 1st year exemption with Manufacturers Statement of Origin (MSO), inspection required with change of ownership.

TECH TIP # VE0057
Editing a VIN, or other data entry field

Here's a neat trick for editing any of the data fields in the analyzer. For example: The VIN entry can be a tedious manual entry with many chances to make a mistake. If you realize you've made a mistake you don't have to use the backspace key and delete all of the correct data while trying to reach the error. Instead, hold down the Ctrl key and use the arrow keys to move the curser to the area that needs editing. You may now overwrite the character you want to change. If you want to insert a character that was missed, hit the insert key on the keyboard, then press the character key you wish to insert.
